## The fine print...

Registration fees include USA Cycling insurance surcharge of \$3.

*Racing Licenses:* USAC or NORBA licenses required for all categories. One-day and annual licenses will be available for purchase at registration. Day Of Licenses will be available for purchase to compete in the following categories:

- **Men Cat 4 Open, Men Cat 4 Masters 35+, Men Cat 4 Masters 45+, all Juniors Categories, Women Cat 4 Open, Women Cat 4 Masters 35+, Singlespeed**

*Registration:* Pre-registration is encouraged by going online to BikeReg.com by 10pm on October 31<sup>st</sup>, 2012. Race Day Registration will be available the morning of the race beginning at 10:00am. Because race-day registration pulls valuable volunteer resources away from other important components of the race production - there will be an additional \$10

day-of-registration fee (we encourage riders to pre-register!). Race-day registration is available up to 30 minutes prior to rider's event. There is no additional \$10 day-of-registration fee for junior riders.

*Start/Staging Procedure:* All categories will be called up by OVCX standings first, then USA Cycling standard call up standings, then order of registration.

*Venue:* Kingswood Park - located at 4188 Irwin Simpson Road in Mason, OH. Google map for course location. The race is being held on a former golf course that has been vacant for a couple of years. It is currently used as a park by Deerfield Township. There will be port-o-lets on site, but no restrooms and no running water, so please plan accordingly. The ground is hard, fast, and fun.
