Important new information for 2015

- As part of our continuing efforts to increase community involvement we are attempting to increase the number of school visits in the surrounding communities. We completed 20 visits last year and are setting a goal of at least 30 visits for our 2015 edition. This is something that is very important to us and to our presenting sponsor.
- Examine the 2015 Entry Form and you will see a box asking if your team will be willing to participate in our school visit program. Checking this box will mean that once your team is accepted to the race, our Visit Coordinator will contact your team to arrange a visit, or multiple visits if possible.
- Upon completion of the arranged visit(s), when prize monies are paid out (usually approximately 30 days after the race), participating teams will receive a \$200 rebate to their entry fee.
